

CITE 2015 ATTRACTS INCREASING INTEREST FROM OUTSIDE JAPAN

The 7th Cosmetic Ingredients & Technology Exhibition (CITE) Japan was held hosted by the Federation of Japanese Cosmetic Ingredients Associations and co-hosted by the SCCJ earlier this year (3-5 June). The Exhibition was a great success, attracting more attendants from neighbouring countries in Asia than the previous show.

The next show will be held in 2 years' time, from Wednesday 31 May to Friday 2 June 2017, at the same venue, Pacifico Yokohama.

The second IFSCC Zone 2 Meeting of the year was held during CITE 2015 on 4 June. Representatives of 11 out of 14 IFSCC Societies belonging to Zone 2 gathered to actively discuss and exchange information on the ASCS Conference and matters related to the IFSCC.
