

## SCCJ ON TOUR

It has long been customary for the members of the Japanese Society (SCCJ) to travel together to IFSCC events led by travel agency staff. Last year was no exception. A large group of Japanese delegates got together to take part in the IFSCC Conference held in Zurich.

A departing ceremony was held at Narita Airport from where we left Japan, and once we reached our destination, Zurich, a team-forming ceremony was conducted prior to the Conference for members to become acquainted with each other and to wish the presenters the best of luck.

We are already planning this year's tour, hopefully to send as many delegates as possible to Orlando. You can probably appreciate by now that we Japanese love to move together in a team, conducting various ceremonies to build a firm feeling of togetherness.
