News from SCCJ, 8 March 2017

■ **IFSCC2016 Domestic Conference**

It has long been customary for the Japanese Society (SCCJ) to organize after each IFSCC Congress/Conference, a domestic Conference in Tokyo where all the cosmetic science presented by Japanese authors at the immediate past IFSCC event can be shared, to provide an opportunity to discuss about such topics amongst those who could not make it to the IFSCC event. In accordance with this custom, an “IFSCC 2016 Domestic Conference” was held a month after the Orlando Congress at which a total of 72 Japanese papers (19 podiums and 53 posters) were presented in the language of Japanese to which an audience of almost 450 Society members gathered.
